

# Hypothesis Guide

## 1. Create an account

Create a free Hypothes.is account at <https://web.hypothes.is/start/>.

2. Click on the email link to join the group “Usaybia.net Virtual Forum.”

In your registration email, you'll receive a link to join the group. Once you're logged into Hypothes.is, click this invitation link to join the group. You'll then see the group as an option whenever you're logged in, under the "My Groups" option when you're annotating a page or under "Groups" on the Hypothes.is website.

### 3. Post your comments or questions.

You'll receive an email with a link to the discussion paper, starting with <https://via.hypothes.is/>. When you click the link, you'll be able to select any text in the document and click "annotate" to post a question or comment. Make sure you're logged in to Hypothes.is and have selected the "Usaybia.net Virtual Forum" group when you post.
